# TELSTRA EQUIPMENT BUILDING ACCESS (TEBA)

## ESTABLISHED SITES

## ESTABLISHED SITES FOR TELSTRA EQUIPMENT BUILDING ACCESS

While many of Telstra's equipment buildings have capacity for TEBA areas to be developed, only a limited number of equipment buildings currently have established TEBA areas. The list below is a guide to the equipment buildings that currently have established TEBA areas.

Please note that this list is subject to change without notice. If you need to obtain an accurate indication of TEBA availability at a specific equipment building, you should submit a TEBA Preliminary Study request in accordance with the Ordering and Provisioning procedures of your Facilities Access Agreement or Customer Relationship Agreement.

If you want to install equipment at a Telstra equipment building, where there is no established TEBA area, a TEBA area can be created in accordance with contractual terms provided there is space available for a TEBA area to be established.

As at: 29th February, 2016.
