Request for exemption from providing a detailed Power Viability Audit

Telstra Site Name:		State:	
RFNSA Number:		Application Reference:	

Proposed scope of works *(please highlight all associated electrical component(s))*

Having duly considered the nominated site's existing electrical capacity and demand, I/we herewith assert that any additional loading introduced by the proposed scope of works will have minimal impact on the overall stability of existing infrastructure.

Furthermore, in the event that the works carried out cause or result in any loss or damage, your liability will be governed by the terms of your agreement with Telstra under which your Site Share access is provided.
